Patients who have been brutalized by their caregivers as children often do not feel safe with anyone. I often ask my patients if they can think of any person they felt safe with while they were growing up. Many of them hold tight to the memory of that one teacher, neighbor, shopkeeper, coach, or minister who showed that he or she cared, and that memory is often the seed of learning to reengage. We are a hopeful species. Working with trauma is as much about remembering how we survived as it is about what is broken.

RESOURCE NEWS FLASH... May 24, 2017

Mental Health Resources

Mental Health Awareness Month – May is Mental Health Awareness Month! National Mental Health Awareness Month is an opportunity to raise awareness of the mental health needs of everyone, including youth. Children involved in the child welfare system compared to the general population have higher rates of mental health issues. Factors contributing to the mental and behavioral health of children and youth in foster care includes the history of complex trauma, frequently changing situations and transitions, broken family relationships and inconsistent and inadequate access to mental health services. Go to www.centerforchildwelfare.org/ChildWellBeing/MentalHealthResources.shtml for various publications and information.
