KNOWLEDGE TO **ACTION**

KNOWLEDGE:

ASSESSING EDUCATIONAL NEEDS OF CHILDREN

The purpose of assessing the educational needs of children is to collect information necessary to make important decisions about services or supports that may be needed to help each child improve their overall success and well-being. Assessment must always serve in ways that enhance opportunities for optimal growth, development, and learning. The process of determining individual educational needs informs education practices and provides a template for setting individual goals.

Formal assessments usually entail the use of standardized tests -- tests that must be administered according to prescribed time limits, instructional and scoring procedures, and administration guidelines. Some of the options available for formal assessments include school based assessments, Early Steps, Child Find, etc. Formal tests usually fall into the following categories:

• Achievement tests • Readiness tests • Developmental screening tests • Intelligence tests • Diagnostic tests

Informal assessments do not use standardized tests but are other ways to obtain valuable and necessary information to assess needs and make decisions about educational needs and services for a child. Informal assessments include observations, anecdotal reports, interviews, reviews of actual work, reviews of reports, etc. Informal assessments should continually focus on child performance, processes, and products over periods of time and in a variety of contexts.

ACTION:

1. **Assess for educational needs, regardless of age.** The type of assessment may vary but even infants can be assessed through observation and interview for educational needs. An example would be observing that a 1yr old is not holding his own bottle/cup. An action to teach a child this would possibly be playing the monkey see/monkey do game with the child for a couple of weeks and then reassessing to see if the child has learned or is improving on holding the item themselves. If not, then there needs to be discussion about whether a more formal assessment may need to be arranged to see if it might be a developmental or physical issue.
2. **Observe:** Observe the child in the home every visit and at least quarterly in the school/daycare. Look for any indications of the child struggling or not being on pace with where the child would be expected to be performing.
3. **Interview the Caregiver:** At every visit have a conversation with the caregiver about the child's progress educationally. Ask about concerns, barriers, needs the child has regarding education and development.
4. **Interview the Child:** At every visit have a conversation with the child about his/her progress educationally. Ask about things they have learned. Ask what they like best and what they like least. Ask how they are doing in those areas. Assess if there are services or activities which might help the child improve their performance. Ask about concerns, barriers, needs the child has regarding his/her education and skills development.
5. **Interview the Teacher:** At least quarterly have a conversation with the child's teacher(s) about the child's progress educationally. Ask about concerns, barriers, needs the child has regarding education and development. Ask what services have been put in place or what other services might be available through the school to assist the child in these areas.
6. **Review:** At least monthly review the child's education screens in Mindshare, progress reports from school, homework assignments the child has, etc.
7. **Act/Consult:** Actively seek services/supports and get them in place without delay. If there are barriers discuss everything you learn through each of the activities above with your supervisor. Brainstorm ways to help the child more. Determine if more formal assessments are needed. Consult with the DCF Liaison at the school or the HFC School Liaison.
8. **Document:** Thoroughly document in FSFN what you learn through these steps and what actions you take.

Children sense – even if they are not explicitly threatened – that if they talked about their beatings or molestation to teachers they would be punished. Instead, they focus their energy on *not* thinking about what happened and not feeling the residues of terror and panic in their bodies.....They don't talk; they act and deal with their feelings by being enraged, shut down, compliant, or defiant.

The Body Keeps the Score by Bessel Van Der Kolk, MD

RESOURCE NEWS FLASH... December 14, 2016

Young Children Resources

Sensory Storytime – The Lakeland Public Library (100 Lake Morton Dr.) is hosting Sensory Storytime – a program of stories and activities that are created for children ages 3-10 on the autism spectrum or with sensory sensitivities. As additional support, fidget toys and a Cozy Corner will be provided. The program runs 10:00-10:30am. An additional period of time for *Socialization & Social Activities* will be given after the program from 10:30-11:00am. The program will be held on the 2nd Saturday of each month beginning January 14th. Registration is required and will open two weeks before the event. Space is extremely limited. Parental or caregiver attendance is mandatory. Questions? Contact Melissa Estrada at 863.834.4275.

Education Resources

Financial assistance/Scholarships – Help build awareness of the availability of scholarship opportunities to help all students get to and through college. The Florida Center for Child Welfare has collected resources to help youth plan for After High School on its Education Resources Page. Go to www.centerforchildwelfare.org/ChildWellBeing/EducationalResources.shtml.

Mental Health Resources

Holiday Stress – To help people cope with grief, stress, and depression during the holiday season, the National Child Traumatic Stress Network (NCTSN) has gathered resources for educators, families, and mental health professionals on such topics as Holiday Stress on the Body, Seasonal Affective Disorder, Tips on Managing Holiday Stress, Celebrating the Holidays without Family Members, Striking Out Stress: A Gallery Walk Activity, and much more. Visit <http://nctsn.org/resources/public-awareness/holiday-stress>.

Community Events
