Sparrow Academy

WHERE LEARNING
+ HEALING MEET

education reimagined

Sparrow Academy is a 3rd–12th grade school that approaches learning through the lens of healing and emotional regulation.

Through an alternative experience of smaller class sizes, welcoming classrooms, and trauma-informed staff, students are offered an environment designed to meet their individual needs.

a unique approach

Sparrow Academy implements a purposeful, healing approach for educating students across a wide range of diverse experiences including emotional challenges, specific disabilities, trauma-related experiences, and those who may benefit from a different experience than traditional classrooms.

Our key strategies of prioritizing life skills and emotional regulation techniques provides a safe space for trust-building and positive relationships to foster educational development.

make a difference

Support Opportunities

We are building a bright future for Sparrow Academy and seeking to build partnerships with those interested in making a lasting impact. By investing in a safe, clean, and well-regulated environment, students will be given the opportunity to heal, learn, and grow.

Our current areas of improvement include:

- ▶ Building insulation for better climate control
- ▶ Repairs to air conditioning units
- ▶ Exterior foundation skirting
- ▶ Flooring replacement
- ▶ Bathroom remodels

Partner With Us

Monthly contributions help to keep our operational costs low and provide specialized small class sizes.
